How does the TaurusProfile™ workshop work?

TaurusProfile™ consists of a kick off training session where you gain your success plan and a series of optional modules tailored to you to achieve your future goals – whether it's building confidence, relationships or forging your career path.

Before your first TaurusProfile™ workshop, we conduct a brand audit of your personal profile and future career outlook. You will complete a short questionnaire, which will create the foundation of your first session.

We then facilitate a series of training sessions with you to draw out key information regarding your personal identity. This information is evaluated and translated into a clear and practical plan to direct the development and enhancement of your personal brand. The TaurusProfile™ optional modules are specific to your personal brand giving you individual training and planning.
